

INTERNATIONAL SHOOTING SPORT ACADEMY

The ISSF through International Shooting Sport Academy is starting D to A level Coach Education Program. The Academy will offer multiple choice of lectures, seminars training and courses helping to develop Shooting sport. The first two levels D and C will be online courses. After D level course, the C level course will open in January 2025. The following are the details sent by Academy:

The D Course, an online program is designed specifically for rifle, pistol, and shotgun disciplines. Participants can enrol in the course either through their national federation. Registration and payment of the course fee grant access to the chosen course module. Following a pilot and testing phase, these courses will become available in September 2024.

The D Course spans 12 weeks and requires approximately five hours per week to complete the assigned tasks. Live online lectures will be conducted nearly every week, and recordings will be available for participants unable to attend the live sessions. Typically, participants are expected to visit a shooting range at least once weekly. Tasks will be distributed and managed within the learning group using the designated learning platform.

The introduction and first week of the D Course establish a foundation for participants in their selected discipline. Our approach integrates Olympic values to guide the behaviour of a competent coach, with an emphasis on safety as the foremost priority. The curriculum also addresses anti-doping education and the prevention of harassment in all forms.

The core content of the D Course focuses on shooting techniques, which are essential to a coach's fundamental knowledge. Additionally, the course includes supportive content on mental and physical training, among other relevant topics. At the conclusion of the D Course, each participant will receive a personal feedback session with an ISSF Academy Instructor.

An integral component of the learning process is the Coach Diary, which participants will utilize throughout the course to document their progress and reflections. Moreover, participants are encouraged to evaluate the course regularly and provide feedback for its continuous improvement. Upon successful completion, participants will receive the ISSF Academy Coach D Certificate.

The course fee is Rs. 50000/- per seat. Coaches interested to attend the Course may send their name, email ID, Discipline and coaching details to NRAI along with Course fee before 8th April 2024. The Course fee will be refunded if the coach is not considered by ISSF for the Course. Our bank details are as under:
