Games**

Promulgated By

The National Rifle Association of India

Approval by

The Governing Body of NRAI on

*23rd September 2022 & Amended on the
recommendations of the Technical
Committee of NRAI on 17th October 2023*

*(effective On Date of Approval accorded by The NRAI Governing
Body)*

POLICY STATEMENT

The NRAI firmly believes in shooters earning their place in the Olympic team. The intention is to ensure through this Criteria of the NRAI, a level, just, & fair playing field for those sportspersons, who wish to enter the fray for all shooting disciplines.

1. SCOPE OF THE SELECTION CRITERIA

- 1.1. The scope of this Criteria is for and only for **Shotgun** events for the Olympic Games scheduled at Paris, France in 2024.
- 1.2. This Criteria will be in force with the commencement of ISSF World Championship, Croatia 2022 in September 2022 and will be valid only for selection of team for the Paris Olympics Games 2024.
- 1.3. It shall be binding on all shooters who seek to represent India at the Paris Olympic Games 2024 in all Shotgun events.
- 1.4. The main National Selection Criteria, as approved by the Governing Body from time to time, shall continue to remain in force for National team selection for international competitions.

2. BASIS OF CRITERIA

- 2.1. The Criteria is based on shooters receiving Final Ranking Points, which will be the aggregate of their total event points from their best three Olympic trials plus Bonus Points obtained as outlined in subsequent pages.
- 2.2. The selection of the venue for Olympic selection trials is the sole prerogative of the NRAI. Such venue once identified by NRAI shall be chosen & it shall then be binding on all shooters, regardless of their personal profile, to present themselves to the test of Olympic selection trials as per the provisions of this Criteria.
- 2.3. It is desired that as many different venues in the country be utilized as may be possible & deemed fit by the NRAI for holding the Olympic Selection trials.
- 2.4. The NRAI is committed to always ensuring that standard ISSF rules are followed.
- 2.5. In case a shooter enters an Olympic Selection trial & he/she, subsequently withdraws from the trial for reasons best known to him/herself & does not complete the trial, his or her score (zero) shall be deemed for purposes of selection under this Criteria to be the exact arithmetical total that exists at the point of his or her withdrawal. The shooter, prior to start of selection trials, must inform NRAI in writing about the number of trials he/she is going to participate in.

3. QUOTA PLACES FOR OLYMPIC GAMES

- 3.1. The NRAI has a clear existent policy that any quota won by an Indian athlete belongs to the Federation and the country. Though due consideration shall be afforded to such an athlete per provisions of this Criteria, it does not necessarily imply that merely winning a quota place in itself suggests that only that particular athlete shall eventually represent the country at the Olympic Games in 2024. Quota place winners alongside other qualified athletes have to subject themselves to the test of trials in order to be selected as per the provisions of this Criteria.
- 3.2. Notwithstanding the above, the Quota will remain with the athlete who has been awarded the Quota by way of Qualification Ranking for the Olympic Games (QROG).
- 3.3. NRAI may request to ISSF to change a maximum of one (1) quota place in one (1) event for one (1) quota place in another event within the same gender if available and if NRAI does not have the maximum number of quota places for that event. This may be done for all quota places obtained (except for the Qualification Ranking quota for the Olympic Games (QROG) which are awarded to individual athletes), where they determine there is greater potential to win an Olympic medal at the Games.
- 3.4. It has been decided in keeping with this Criteria and its main objective of fielding the best from the best, purely on merit.
- 3.5. The NRAI will ensure on the basis of this Criteria which individual shooter of that event shall ultimately represent the country at the Olympic Games on the basis of this Criteria.

If a tie still prevails, then a shoot-off over a full round of 25 targets will occur until a winner is determined.

- 8.4. The medical fitness of an athlete is essential. NRAI reserves the right not to select an athlete from the Olympic team at any time (subject to event specific deadlines), who is medically unfit to compete as a result of injury or illness. This will be verified by a medical professional appointed by NRAI for that purpose.
