Ref: ISSF Athletes Committee Survey of the 25m Men's Pistol Event for the Los Angeles Olympic Games 2028

Dear National Federations Presidents,

The possibility of change for the 25m Men's event is being discussed inside the ISSF for the Olympic program in Los Angeles 2028. Currently, the 25m Rapid Fire Pistol (RFP) is in the program and the possible proposal will be to replace it with 25m Sport Pistol Men (SPM), the same event as women. For this reason, the ISSF Athletes Committee is conducting a survey among all the Men's pistol athletes that will be affected by this possible change. It's really important for us to understand what their choice is. Any Men's pistol athlete that has an ISSF ID issued under your Federation can vote.

We would like to ask your support to share the link to our survey with the Men's pistol athletes from your Federation. The deadline for the survey is Feb, 6th 2025.

The results of the survey will allow the AC the possibility to better represent the choice of the majority of the athletes inside the ISSF. The final decision will be made by the ISSF Council. The key analysis for this decision will be the IOC Report from the Paris OG 2024. However, for sure the opinion of the athletes will be taken into consideration and we need the participation of as many athletes as possible.

If you have any doubts and inquiries, please don't hesitate in contact us.

Thanks for your continued support for the ISSF AC and all the athletes of the world.

Best regards,

A handwritten signature in black ink, appearing to read "Cassio Rippel", is positioned above the name and title.
