## 1. MOVING AVERAGE METHOD (MAM)

### a. General Rule

The ranking of an athlete shall be determined on the basis of the Average Score (AvS), computed from the best four scores out of the latest five scores achieved within the last 180 days. No score shall be bypassed, omitted, or disregarded, unless expressly permitted under this selection criteria.

### b. Method of Computation of AvS

The AvS shall be computed as follows:

- From the athlete's latest five scores, the lowest score will be deleted.
- The remaining four scores will be added and the total divided by 4.

Formula:

$$\text{Average Score (AvS)} = (\text{Total of Latest 5 scores} - \text{Lowest score}) / 4$$

In 2026 - For all Rifle events - MAM will apply as follows:

Post ST 1 & 2 (for the selection of teams for the 1<sup>st</sup> set of IRC's ) - Calculation of AvS - MAM - will be as follows.

1. Average of highest two 2 of last 3 scores ( in 2025 ) / 2 - this will form one score.
2. ST 1 + ST 2 will be the other two scores on the chart.
3. All 3 above scores will be added and divided by 3 to arrive at Avs [ there will be no deletion of these 3 scores].

The National Squad (NSQ) 2026, for Rifle events will be announced on the basis of the above formula. The NSQ to be constituted from amongst the A group athletes after ST2.

Post Selection Trial 4 – re-evaluation of NSQ and teams for IRC's; the AvS will be based on scores shot ONLY in 2026 (in accordance to the new ISSF Clothing rules. No scores achieved with old clothing rules will be considered)

### **AvS until the Rifle Athlete has 5 scores (shot in accordance to the new rules):**

AvS = Total of all available RC scores (of 2026) / divided by the number of RC's.

All available scores (ST 1 and onwards) will be placed on the chart and all scores will be used for arriving at the AvS. No deletion will be permitted until the rifle athlete has more than 4 scores. It is possible that some athletes ( participants of IRC's] will have 5 scores before the Domestic athlete and in that case that athlete will get the benefit of the deletion. Rifle athletes will have to shoot all RC's until they have a minimum of 4 scores shot in 2026.

- **Ancillary points (as per Chart X below) gained in the Finals, shall be added only to the specific qualification score and not to the AvS.**

### **c. Definition of Scores**

For each athlete, the latest five scores will be listed as S1 ... S5 (**with** S1 being the most recent).

Individual five latest score (S1.....S5 (S1 being the newest score)

Score (S) =QS(Qualification Score) + AP(Ancillary points, if any) S=QS+AP

This rule will be applied ONLY on the basis of an ‘Incidence Report.’ This particular score would be considered as not shot - DNS - for the purpose of MAM. If the above-described malfunction takes place in an IRC, the athlete and coach must try to get a certificate from the range officer / jury / organizers but if for some reason this is not feasible then the pistol coach / or any responsible official of the NRAI must certify the same and **inform the NRAI within 3 days of the incident**. In this case the athlete’s average would be considered on the basis of preceding 6 scores where the above match/ score would be bypassed, subject to such score [S6] being within the time frame. the athlete’s average would be considered on the basis of preceding 6 scores where the above match would be bypassed and S6 would have to be considered, subject to such score being within the time frame.

NOTE: the athlete must inform the Range Officer and the range officer must be satisfied that the malfunction would have been an allowable malfunction if the athlete had not exceeded the number of permissible allowable malfunctions. The athlete will get the benefit of this clause irrespective of the fact that the athlete continues the match after such malfunction or decides to pull out of the competitions. If the athlete does not get the certificate / incidence report from the range officer then this clause cannot be invoked. Requests received after 3 days of the incident shall not be accepted.

## Rifle and Pistol

### a. Norms for bypass

An athlete can bypass a score for any of the above reasons **ONLY ONCE** in one Shooting Calendar year. At no point, will the athlete be allowed to bypass more than one score in one calendar year even if the different clauses can be invoked. For example, an athlete requests the bypassing of a score due to weapon breakage, then even if he/she has another episode-in the same shooting year, which falls under another clause, it would not be permitted as the limit of bypassing a score-is only once in a shooting calendar. For bypassing a score, the Athlete must apply to the NRAI **within 3 days of the incident** and letting the NRAI know that this is the first and only time that s / he has claimed the bypass of a score in an event, in the relevant shooting calendar. **APPLICATION RECEIVED AFTER 3 DAYS OF THE INCIDENT SHALL NOT BE ACCEPTED.**

### b. FAILURE of equipment in "Random Check"

In the case of an athlete who is disqualified due to his / her equipment not passing equipment control test in a 'random check' after the match, and it is established that this failure to pass the equipment control was beyond his / her control then the athlete's score of that match will be considered as DNS and this score will be bypassed. This rule will apply **ONLY** when the equipment is examined and 'passed' by Equipment Control [EC] prior to the commencement of the match, and it can be established that the athlete has not tampered with the equipment. On the request of an athlete - the EC official will state the reason for failure of equipment in writing. The athlete along with the national coach must make an application to the NRAI within 3 days of the incident, requesting that s / he be allowed to bypass that score. The approval for this bypass will be permitted only after thorough evaluation by RTS/ NRAI.

**In the case of Pistol events - this rule shall not apply if the failure is due to Trigger Weight.**

## 5. TIME FRAME

Calculation of the Moving Average Method (MAM) – Time Frame Clause

### 1. Validity of Scores

- ii. The five scores of an athlete [S1...S5] must not be older than **180 days**.
- iii. The score will be calculated backwards from the last day of the latest competition.
- iv. Example: If a competition begins on 21.12.2000 and ends on 30.12.2000, counting will start from 30.12.2000.
- v. If the 180th day coincides with the last day of the oldest competition, the score will be considered valid, even if the event was actually shot a few days earlier.

- vi. If, within this 180-day period, an athlete has only four scores, then he/she will not get the benefit of deducting the lowest score.

## 2. Applicability of the Time Frame Clause

The time frame clause comes into effect only when an athlete wishes to skip a Domestic Recognised Competition (DRC).

## 3. Relaxation under Time Frame Clause

### a. Insufficient Non-Restrictive DRCs

- a. If NRAI has not conducted an adequate number of non-restrictive DRCs, the 180-day limit will be extended by the NRAI for the calculation of the Average Score (AvS)

### b. Extraordinary Cases

- b. NRAI may extend the time frame in cases of exceptional athletes who have consistently proven themselves at major international competitions in the last 2 years but are unable to participate in the current Recognised competition/s. The NRAI would extend the time frame to a maximum of 210 days.
- c. Such athletes must have obtained advance consent from the NRAI by explaining; in writing; their compelling contingency.
- d. In these cases, the Selection Committee will record its reasons in writing while justifying the decision.

### c. Purpose of the Clause

- i. The clause ensures that athletes present their most recent performances and discourages reliance on old results.
- ii. It applies only when NRAI organizes a DRC and an athlete seeks to skip it, provided s /he already has the required number of scores within the time frame.
- iii. NRAI retains the discretion to extend the time frame whenever necessary.

## 6. SCORE LOG AND NORMS FOR MAINTENANCE OF LOGS FOR DIFFERENT CATEGORIES

- a. Score logs for the two Groups "A" and "B" would be maintained separately and consolidated twice in one shooting calendar.
- b. Ranking of all athletes, would be maintained as per Group selected by them. Once a Group "B" junior athlete selects a category [senior or junior], the scores in trials/competitions shall be considered under that particular category only. Scores of Athletes opting for Junior category will be logged in the Junior category log.
- c. There will only be one Log sheet for Juniors and Youth athletes and no separate Log sheet will be

prepared for Youth athletes. For the purpose of selection of Youth Athletes (for international competitions in Air weapon events), the scores of eligible youth athletes will be lifted from Junior Log sheet for the purpose for selection of Youth athletes.

- d. After every National Championship “B” Group - junior / youth athlete’s qualification scores will be transferred to the main Log [senior category] of that event so that s / he may be evaluated along all with all other athletes giving him / her the opportunity to reconsider his Group / category at the time of consolidation of scores. Scores of athletes that are participating in the newly introduced “Youth category” for firearm events” in domestic competitions will be treated as junior athletes for the purpose of MAM and their scores will be inserted in the Junior Log.
- e. All scores achieved by an athlete in an RC [DRC and /or IRC] would be considered for the purpose of this Method – No score achieved in an RC will be overlooked or bypassed. Qualification Scores achieved in an RC - in any category – (Open/Junior/Youth) will be considered for the MAM. Qualification Scores of all recognized competitions would be recorded in the Main Log and in respective categories and no score that has been achieved by the athlete in any recognized competition can be ignored /bypassed or evaded.
- f. FINALS in restricted competitions: Junior/Youth Athletes or any other category of athletes who shoot ‘Finals’ in restricted competitions [where the competition is not a senior open men or women’s competition] will get restricted benefit of Chart X, as the points will be added, ONLY to the Log maintained for that category. For example, an athlete who shoots 580 in the qualification round of a Junior IRC and wins the Finals in that competition will record 580 in the Main Log,  $580 + 1.5 = 581.5$  in the Junior Log. The advantage of Chart X in a restricted RC will be registered in the specific Log only.
